

Post-participation Survey

Resource Rhymes aims to increase community knowledge and appreciation of valuable resources. In order to gauge the level of increased knowledge and behaviour change, participants (schools and students if possible) are required to complete this survey after completing the program, to allow comparison to the pre-program survey results.

This will be compared to the pre-project survey and used to inform relevant Councils, stakeholders, the general public and future programs.

All information is confidential and any information used will not be attributable to any person/groups in particular.
